Social Policy Feedback

CIPS identifies repeated social policy issues – those that recur over multiple calls – usually regarding access to a social or public service. Staff in CIPS are well-placed to identify these recurring issues, given the volume of calls received.

For each of these, CIPS offers a brief narrative – a summary of the issue faced by a given caller – that they consider illustrative of a wider concern. This is known as a social policy return (SPR). The social policy returns sent into CIB do not therefore represent the number of times a particular policy or access issue has surfaced overall but rather provides us with brief ‘lived experience’ examples of what the issues are and how they impact people.

These SPRs thus provide CIB with useful insights, enabling us to ‘get behind’ the call statistics.

In Q2 2025, CIPS submitted 170 social policy returns to CIB. Table 9 provides an indication of the key areas posing difficulties for callers. Over 88% of identified social policy issues related to *Moving Country, Social Welfare, Housing, Money & Tax* and *Health*.
